## From the Headmaster's Desk

Dear Parents

During the course of this week I have had the opportunity to interview a number of prospective 2023 Squires. The young boys sitting in front of me all have their own stories to tell and will often blow me away with what they have achieved during the most difficult time in the history of education.

These boys also bring something that I truly appreciate, a positivity and a zest for life that is almost infectious. No matter the challenges I have faced during the daily running of the school, I find myself in a fantastic frame of mind after meeting these young gentlemen. These boys teach me so much and constantly add value to my life.

The biggest lesson I learn from them, is the power of a positive attitude. They have been through so much, yet they refuse to be downtrodden or depressed. They simply get on with it and continue to dream big and smile those beautiful smiles as they look forward to all that is good and exciting about high school and life in general.

As Charles Swindoll so rightly said, "The longer I live, the more I realize the impact of attitude on life. Attitude, to me, is more important than facts. It is more important than the past, than education, than money, than circumstances, than failures, than successes, than what other people think, say or do. It is more important than appearance, giftedness or skill. It will make or break a company... a church... a home. The remarkable thing is we have a choice every day regarding the attitude we embrace for that day. We cannot change our past... we cannot change the fact that people will act in a certain way. We cannot change the inevitable. The only thing we can do is play the one string we have, and that is our attitude... I am convinced that life is 10% what happens to me and 90% how I react to it.

And so it is with you... we are in charge of our Attitudes"

Regards

PP Viljoen
